Hebei Jingze Textile Co., Ltd. is located in Xinxing Industrial Park, Jize County, Bengbu City, Hebei Province. It covers an area of nearly 100 acres and has 500 excellent employees. It is a professional manufacturer of medium and high-grade sewing thread T20/2,3----T60/2 , 3,4 yarn production and management of textile enterprises, the company produces 6,000 tons of high-grade sewing thread. The company has an efficient management team, excellent product quality and perfect after-sales service. The products are widely used in fisheries, textiles, leather, clothing, shoes and hats, handbags, bags, toys, webbing, sporting goods and other industries. The company has advanced equipment, mature technology, rigorous testing methods, strict quality management system and perfect after-sales service guarantee system. The company is committed to the research and development, production and market development of high-end sewing thread, and is one of the most distinctive textile enterprises in Hebei textile and garment industry.

At present, the company has more than 80 sets of the most advanced double-twisting machine worsted equipment in China, with a spinning capacity of 40,000 spindles. After professional upgrade and transformation, the equipment is more professional and adaptable, with self-leveling and smoothing. The joint system, self-leveling draw frame machine, high-speed parallel machine, high-speed loose tube machine, double-twisting machine and workshop air temperature and humidity automatic control air conditioning humidification management system provide the basic guarantee for product quality assurance.

The company has domestic first-class laboratories: Uster 5 yarn defect detection analyzer, strip dry detector, crepe length measuring instrument, twist tester, fluorescence detector and trapezoidal shaker blackboard, etc. The guarantee of our product quality provides technical support.

The company continually optimizes innovative production processes, pursues superior quality, and combines on-line monitoring and random inspection of product quality for quality control, complete testing and testing equipment, complete management system and strict process control. The company's quality is based on the national standard yarn, based on customer demand as the standard, with the international advanced level as the goal, strict process control, continuous innovation and improvement of quality and technology.

The company firmly believes that the "profit model is more important than profit, the technical standard is more important than the technology, and the market position is more important than the market". We are dedicated to operating every product and every customer. The company uses its own expertise in the textile field (professional) to focus on the application and development of textile sewing threads, and has become a strategic partner of world-renowned sewing thread brands and manufacturers.

At the same time of operation, the company strives to build a textile fleet of high-quality sewing thread, adheres to the people-oriented, has a professional and efficient textile professional operation team, cultivates an excellent talent team, with expert leading figures, professional management technical team, innovative type. The market team and high-quality workforce support the company's vigorous development.

Polyester yarn

product name:

Polyester yarn 20S/2,20S/3,20S/4
polyester yarn 30S/2,30S/3
polyester yarn 40S/2,40S/3
polyester yarn 50S/2,50S/3
polyester yarn 60S/2, 60S/3

product description:

Material: 100% Yizheng 210 Chemical fiber

Color: This white

product technology: self-linking, double-twisting,
empty connection

Product advantages: high strength, low yarn defect, no
knot, environmental protection

use: knitting, sewing

origin: Hebei, China
