

ABOUT US

Shree Pushkar Chemicals & Fertilizers Ltd., established in 1993 is a leading manufacturer of Dyes, Dye Intermediates, and Fertilizers. Having started manufacturing in the year 2001 with a single product, we have aggressively expanded our portfolio to over 25 products. Today, we have become a force to reckon with and are on the path of sustained leadership.

TRULY SUSTAINABLE

We, at SHREE PUSHKAR, thrive to take care of our people and the environment and we strongly believe in the concept of 'True Sustainability'. Some of these factors that make us truly sustainable have now turned into our core strengths.

FULLY BACKWARD AND FORWARD INTEGRATION

Having started the manufacturing of Dye Intermediates in the year 2001 and dyes in 2016, we have not only expanded our portfolio in a horizontal manner but also in the vertical space which helps us be least dependent on outside suppliers.

SUSTAINABLE BACKBONE

We have our own Logistics fleet that brings us the ease of transportation. We have also established our own captive Power plant that reduces our electricity cost and makes us unaffected to power cuts.

ZERO WASTE

Each waste is treated to the best possible level and then used to make other value added products such as Fertilizers and Cattle Feed Supplements.

ENVIRONMENTAL, HEALTH, SAFETY, SOCIETY

We are now a 'Bluesign System Partner' which demonstrates our strong commitment towards gold EHS Standards. Regular training sessions are conducted on various plant locations.

DYES AND INTERMEDIATES

We are one of the leading manufacturer of Reactive Dyes. Our belief in sustainability led to the launch of DYECOL™ range of Reactive Dyes to tackle environmental and sustainability issues of the textile wet processing industry. It uses less water and energy and decreases the processing skills in comparison to conventional dyes industry.

OUR DYECOL SERIES ARE AS UNDER:

DYECOL Royal Blue Series

DYECOL Turquoise Blue Series

DYECOL Black Series

DYECOL CELF Reactive Dyes (Superlative Sustainable Reactive Dyes)

DYECOL CEFT & RR Reactive Dyes (All round Sustainable Reactive Dyes)

DYECOL DR Reactive Dyes (High end Sustainable Reactive Dyes)

DYECOL SS Reactive Dyes (The new generation Sustainable Reactive Dyes)

DYECOL CE Reactive Dyes (The new generation Cost Economy Dyes)

DYE INTERMEDIATES

What sets us apart from our competitors, is our wide ambit of Dye Intermediates like H Acid, Vinyl Sulphone, Sulpho Para Base, K Acid, Gamma Acid amongst others. Herein lies our core strength and a proof of our product diversity.
