CURRENT PRODUCTION CAPACITY

Our current production capacity:

PRODUCTION PROCESS

1- Submit sample

Once we receive your sample, we'll create a price estimate for the project for you to review.

2- Product Development

Once you accept our offer, we'll begin sourcing to find suitable materials for your items and send them to you for review. This process typically takes between 7 to 15 days.

3- Manufacturing and Production

After approving the samples and down payment, we commence the production of your product.

4- Quality Assurance

Our quality control team inspects each product to ensure no issues exist. By mending and correcting items before they go to packaging, we provide more consistency for your brand.

4- Quality Assurance

We help with the shipping documentation and arrange for your items to be sent to your preferred address. This stage is where the final payment is required.

PROCESS OF PRODUCTION

WHY WORKING WITH US?

Proximity

Romantic co ltd is located in the FREE ZONE OF TANGIER, an excellent gateway between Europe and Africa.

Tax Incentives

Our company enjoy exemptions from various taxes, including corporate tax for the first few years of operation, VAT, and customs duties on imports and exports. This reduction in operational costs can result in lower prices for products or services.

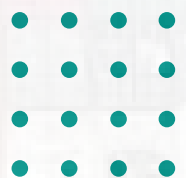

Good quality

The quality of production in our company stands out due to a rigorous process and constant attention to detail. Every step, from design to manufacturing, is supervised by experts to ensure that the products meet the highest standards.

OUR NEW FACTORY
