Our valued expertise and experience in sourcing and specialized fields in excess of ten years constant period have helped us pick up an in-profundity understanding of textiles, Apparels, Fashion Accessories, . MUUD BD is reputed Buying House based in Dhaka, Bangladesh, sourcing material for abroad purchasers, from Bangladesh and China. We are in a perfect world put to offer you the best quality and best cost with timely delivery from our huge database of reliable manufacturers and exporters from these countries. MUUD BD works in ranges of product production, development & timely deliveries, coordination & communication, online & post production inspections.

About us

MUUD BD worldwide provides sustainable sourcing for the fashion and hospitality industry. Our solid relationships with manufacturers and quality suppliers around the globe ensure that we maintain high production standards through our team of on-site inspection agents and international trade specialists.

Our highly competitive product prices and professional services fees position us to operate on short lead times, low margins and flexible volume together with our partner suppliers in key low-cost and duty-free countries. MUUD BD worldwide has a strong ability to work with any of the world's fashion apparel companies or consumer goods discounter.

Vision

Attain market leadership with top notch and unique product quality through honest, efficient and empowered employees.

Mission

We will satisfy our buyers as well as other regulatory requirements ensuring to provide quality service and products. To meet the goal we are committed to put the best endeavors and work as a team efficiently for continual improvement of the quality management system

The foundation of our culture our history and our values. We believe that we should always conduct ourselves and our business openly, honestly and in compliance with all applicable laws.

Our reputation is built on the actions of our people and this is why what you do everyday is so important. We believe that our success should be based on a common vision of shared values and a consistent standard of conduct. In other words, all of us have a responsibility to uphold our reputation and our values.

This Code of Conduct and Business Ethics (the “**Code**”) provides the general principles on the way we should conduct ourselves and our business, how we should serve our customers and how we should work with our suppliers. They are not meant to be exhaustive and cover every possible issue that may arise but instead, you should treat them as guiding principles to help you make the right decision in any situation you may face. You should read and understand what these principles mean and apply them everyday.

SUPPLIER CODE OF CONDUCT

We must work with suppliers to cultivate safe working conditions, to foster dignity and respect for workers, and to promote responsible environmental practices. Our **Supplier Code of Conduct** and accompanying Standards detail the principles and practices that we expect our suppliers to uphold and cover:

Demonstrating responsibility, transparency, and accountability in compliance with the **Supplier Code of Conduct**.

We must always use our best effort to promptly fulfil customer needs with good quality goods and services that meet high standards of safety and reliability and at prices that represent excellent value for money.

MUUD BD SERVICES

A composite image featuring a woman's face on the left and a dense green forest on the right, both enclosed within a white line-art outline of a human head. The text "Research & Development" is centered over the image.

Research & Development

A graphic showing a lush green tree growing out of a transparent globe that displays the continents of Africa and Europe. The text "Supply Chain" is centered over the image.

Supply Chain

A 3D illustration of a green bar chart with five bars of increasing height, placed on a green map of Europe. A green Euro symbol (€) is positioned to the left of the chart, and a white dollar sign (\$) is to the right. The text "Production" is centered over the image.

Production

A hand holding a small green globe, surrounded by a circular arrangement of icons representing various sustainable technologies: a sun, a wind turbine, a solar panel, a recycling symbol, a leaf, a water drop, a lightbulb, and a gear. The text "Sustainable Products" is centered over the image.

Sustainable Products

A woman's profile is shown in a light beige tone against a matching background. Inside her head and heart, there is a detailed forest scene with tall evergreen trees and a blue sky. The heart is depicted with two white outlines, one larger than the other.

Research in MUUD BD

We believe that Research & Development is the foundation of any collection. Our R&D teams in different locations source and develop the latest fabrics, finishes, and washes ahead of the market. The team works closely with our extensive network of mills to provide customers with quality products at their desired price.

Development

Our Technical Support Teams ensure that samples are created and developed safely according to customers' product required specifications.

SUPPLY CHAIN

Our supply chain solutions are all about helping our customers by delivering speed and efficiency across their global supply chains and enabling margin enhancement and innovation.

Breaking the mould of a traditional sourcing agent, we offer a range of solutions to mills, factories and other vendors helping them navigate supply chain complexity and increased compliance to accelerate the creation of sustainable supply chain solutions.

we are building a range of tools for retailers and suppliers across three platforms: Materials Platform, Production Platform, and the Vendor Platform.

A digitized **materials marketplace** will facilitate more efficient collaboration with mills and trim suppliers as fabric and trims are converted to digital assets allowing ease of discovery and building a collection of materials. This will also enable improved costing comparisons

PRODUCTION

Through our **Vendor Platform**, we can work with a number of suppliers as partners, ensuring the best fit for any project in any capacity through our networks.

We use dynamic costing tools that enable commercially-led merchandising, linking design decisions with business outcomes. Scenario-based analysis, forecasting, and pre-costing with real-time changes are helping bring about speed, allowing for faster decisions and matching orders with the right factory.

We are also developing an enhanced capacity management tool to improve production flow with factories, allowing our vendors to reap the benefits from increased operational efficiency and productivity and enhanced digital connectivity with MUUD BD Other solutions for vendors and suppliers include: compliance and sustainability, vendor supply chain services, manufacturing excellence, smart factory solutions.

SUSTAINABLE PRODUCTS

Sustainability Strategy

We responsibly manage our environmental, social and governance performance and work with our customers, suppliers, and industry partners to further the sustainability of supply chains and communities across our ecosystem.

MANAGEMENT

We are humble

Having evolved from a small start-up to a global supply chain, creating value for our customers has been driving our success. We aim to provide innovative supply chain and logistics solutions that meet the needs of our customers and add long-term value to their businesses.

Our leadership

We are entrepreneurs with In-depth supply chain and professional expertise and expert knowledge of international consumer trends and production markets.

Under the leadership of our founder & COO, Antonino Mura and CEO Iftekhar Uddin supported by a management team that represents some of the most experienced professionals in the Industry. The depth of executive experience provides a strong and talented team that drives the company's continuous growth and success.

Relationships with our Associates

We must seek mutually beneficial long-term relationships with customers, suppliers, our valued partners, regulators and other third parties based on fair, respectful and trustworthy practices which help us to successfully moving towards in this 5 years journey.
