

Company Information

shijiazhuang Huada Auxiliary &Dyeing Chemical Factory eastablishedin 1987, was full capacities of product develop-ment, manufactuingsale and technical support. Annual prodrc-tivity amornts to 3000 tonnes

The company is well fortifide with a group of professional inthe areasof Textile, Printing and Dyeing, Macromolecularchemistry and Fingchemistry. The compay takes full advantageof many professors, engineerand technologie to accom-plished many products.

Depending on reasearch and product in many years, thecompany'sprodrction and technical was increas ing uninter-rupted now and future.The product range'refers from textile、 printing and dyeing、 leather、 paper,wool, washing etc For market's equition, the company makesome production in amy-lase and liquid sulfur dyes.

The company is powerful in reasearch and development, and isdeveloped rich kinds or auxiliaries, frequent updatingof product. Thecom pany's products are well recon gnized in markets

Depending on superior quality, good service and hige reputationthe company is willing to establish a long-term mu-tually beneficial business partnership with overseas customersand contine to contributeto the happy life of humans.

Product catalogue

Petreatment agents

1. scouring agent
2. Desizing boil agent
3. Cold reactor refining agent
4. penetreating anget
5. cleaning agent
6. sequestering agent
7. stabilizer

Deing agents

1. ing agent for disperse dye
2. ing agent for cationic dye
3. ing agent for acid dye
8. non-formaldehyde fixing agent
9. anti-migrands agent

pringting agent

1. crossing agent
2. printing thickeners
3. binders for pigment printing
4. post dressing

Amylases

1. amylase
2. desizing enzyme
3. scourning enzyme

Special finishing

4. non-silicone softing agent
5. silicone softeners
6. smooth agent
7. durable press finishing resin
8. water proof agent
9. stiffening resin finishing
10. anti-electrostatic agent
11. amorousness enhaucing
12. anticrease agent
13. anti-piling agent
14. moisture absorption sweating agent

Other agnets

1. liquid sulfur dyes
2. penetreating oil
3. liquid detergent
4. softing flake
5. methyl silicone oil
6. silicone defoamoning agent
7. waste water decolorant
8. formaldehyde catcher
9. dye vat cleaning agent
10. APEO removing agent
11. wax removing agent
12. substitution alkali agent
